Visitor Registration and Office Access

ADM-VIS-101 | Version 1.0 | Owner: Office Admin | Reviewed: 18 October 2026

FICTIONAL COMPANY DATA - FOR DOCUMENT UPLOAD TESTING

Set a consistent process for scheduled visitors to the fictional Sentral Ops office. This policy covers office visits only; it does not grant warehouse, loading-bay, or server-room access.

Visiting hours	09:30 to 16:30, Monday to Friday
Registration deadline	15:00 on the previous working day
Visitor badge	Blue badge marked V; return it when leaving
Exception approval	Written approval from Office Admin before confirmation

Registration rules

- The staff host submits the visitor name, organisation, visit purpose, expected arrival and departure times, and host contact number to Office Admin.
- Office Admin confirms the registration. An invitation or meeting-room booking alone does not confirm building access.
- Walk-in visitors wait at reception while Office Admin contacts the host. Reception must not grant access simply because a visitor knows a staff member.

Arrival and departure

- Reception checks the registration and issues a blue V badge. The host meets the visitor at reception and remains responsible for escorting them.
- Visitors may use the booked meeting room and designated reception area. Warehouse, loading-bay, and server-room access require separate site-authorised clearance.
- The visitor signs out and returns the badge at reception. Reception records the actual departure time.

Exceptions and records

- Visits outside 09:30 to 16:30, or on a weekend, need written Office Admin approval before the host confirms the visit. The host cannot approve their own exception.
- Keep the registration, approval reference, badge number, arrival time, departure time, and host name in the visitor log. The assistant may explain this process but cannot approve entry.
